WARNINGS

**Impact Expected:**

- Possibility of cloud to ground lightning at isolated places.
- Fall of weak trees or weak structures due to gusty winds.
- Localized and short-term disruption of power.
- Damage to crops due to unseasonal rainfall.
- Strong wind/hail may damage plantation, horticulture, and standing crops.
- Minor damage to kutcha houses/walls and huts.

**Action Suggested:**

- Avoid working in open areas and fields while thunderstorms are taking place.
- Avoid taking shelter under tall trees and structures when a thunderstorm is occurring.
- Unplug electrical/electronic appliances.
- Immediately get out of water bodies.
- Keep away from all objects that conduct electricity.

**Agromet Advisory:**

- As there is a possibility of thunderstorm activity accompanied by gusty winds (30 to 40 kmph), lightning, and light to moderate rainfall, harvesting of matured crops should be done.
- Harvest the matured crops as early as possible and keep them in safe places.
- Provide support to young fruit plants and vegetables to prevent lodging.
- If threshing is not possible, the harvested produce should be covered properly.
- For protection from untimely rains, the stored grains should be shifted to safe storage.
- Avoid irrigation and any kind of chemical spray.
- Make arrangements to drain out excess rainwater from the fields.
- Cattle should be kept in safe places in cattle sheds. Keep farm animals indoors during thunderstorms and lightning.
